## 1. The example

The Hainburg hospital

The hospital was documented first in the year 1390.

Today about 320 employees working there to give treatment to about 8.400 patients per year. The hospital belongs to the state of Lower Austria, holds 180 beds for 3 departments and 2 Institutes.

The hospital has a helipad on the east side of the building.

## 2. The scenery

The photorealistic scenery was build from scratch. GoogleEarth and pictures taken from the site where used as data source. The helipad has no ICAO code and is for VFR only. Some objects are from the joint library of the AXDG.

### 3. Functions (summary)

- Photorealistic scenery
- Compatible to OSM+autogen from PilotBalu
- Compatible to X-Plane 10 HD Mesh Scenery v2 from alpilotx
- Realistic ground texture on the hospital area
- Night textures and realistic lightning

### 4. Installation

Simply unpack the folder and copy the content into your 'custom scenery' folder of X-Plane. Restart X-Plane and enjoy.

### 5. Recommended settings

To visualize all light effects, HDR should be activated. The higher the settings for "texture resolution" and "airport detail" the better the quality of the scenery but the more affect on the FPS ratio.

### 6. Necessary software:

X-Plane® Version 10.25+

### 7. Libraries used

None

### 8. Recommended addons

Although the scenery will work without any addons, we recommend to use the following ones for the whole experience (pictures taken with addons installed):

OSM\_Europe\_osm+autogen by PilotBalu.

Download: [http://simheaven.com/?page\\_id=23](http://simheaven.com/?page_id=23)

to have streets and buildings from OSM and autogen where is no coverage of such data.

Europe\_Library from LyAvain.

Download: [http://simheaven.com/?page\\_id=14](http://simheaven.com/?page_id=14)

to see European instead of US buildings.
