## 2. The Scenery

The scenery is based on publicly available information.

All objects were completely rebuilt.

The scenery includes night textures and realistic lighting (Only X-Plane 10, 11).

### Kartenmaterial

not available.

## 3. Functions (summary)

- Photorealistic Scenery
- Compatibel to "OSM+autogen" bzw. "Osm\_Austria\_beta5.0" from PilotBalu
- various buildings in the area
- realistic ground texture at the airport and in the surroundings
- night textures
- realistic lighting \*)

\*) X-Plane 10+, 11+ only!

## 4. Installation

Just copy the folder " LOAF KH Horn 2.0 " in the compressed file after unpacking in the "Custom Scenery" - folder.

### directory structure:

```
<X-Plane-Verzeichnis>/
  Custom Scenery /
    LOAF KH Horn 2.0 /
      Earth nav data and others)
```

and restart X-Plane.

## 5. Recommended settings

To visualize all light effects, HDR should be activated. The higher the settings for "texture resolution" and "airport detail" the better the quality of the scenery but the more affect on the FPS ratio.
