## 1. The Original

### Wiener Neustadt Hospital

The hospital was opened in 1889 in the city of Wiener Neustadt.

Around 2.300 staff are working there for about 46.000 in- and outpatients in 15 Departments and 4 institutions.

The hospital holds around 860 beds.

The hospital Wiener Neustadt is also an academy for the medical university of Vienna.

## 2. The Scenery

The scenery is based on open public information and maps. The objects were completely rebuilt.

The package includes night textures and realistic lighting (X-Plane 10 only).

The scenery pack was designed as an addition to the AXDG scenery LOAN / LOAW Wr. Neusadt Ost (Link: : <http://www.x-plane.at/drupal/node/301>) but can also be used as a stand alone scenery.

### Charts

The helipad is located near the LOAN airport and can be found on the charts included in the above mentioned package.

Nevertheless a VFR approach/departure chart was made by the author using real life vectors.

### 3. Functions (summary)

- Photorealistic scenery
- Different buildings on the premises of the hospital
- Night textures and realistic lightning

\*)

\*) X-Plane 10 only

### 4. Installation

Simply unpack the folder and copy the content into your 'custom scenery' folder of X-Plane. Restart X-Plane and enjoy.

### 5. Recommended settings

To visualize all light effects, HDR should be activated. The higher the settings for "texture resolution" and "airport detail" the better the quality of the scenery but the more affect on the FPS ratio.

### 6. Necessary Software

X-Plane® Version 10.30 or 9.7

### 7. Comments for X-Plane 9 version

Unfortunately some functions of the scenery must be disabled for X-Plane 9 and therefore it will not look like on the pictures which where taken with X-Plane 10.30

## 8. Used libraries

none

## 9. Recommended Addons

Although the scenery will work without any addons, we recommend to use the following ones for the whole experience (pictures taken with addons installed):

AXDG scenerypack LOAN / LOAW Wr. Neustadt Ost

Download: <http://www.x-plane.at/drupal/node/301>

OSM\_Europe\_osm+autogen by PilotBalu.

Download: [http://simheaven.com/?page\\_id=23](http://simheaven.com/?page_id=23)

to have streets and buildings from OSM and autogen where is no coverage of such data.

Europe\_Library from LyAvain.

Download: [http://simheaven.com/?page\\_id=14](http://simheaven.com/?page_id=14)

to see European instead of US buildings.
