Austrian X-Plane Design Group

1. The Original

The Airfield is located close to the styrian border in the direction of the Pinka river and North of the city of Pinkafeld.

In this nice surrounding we can find a lot of cultural and scenic hotspots with free time activities like, coming from a golf resort and after that enjoying a wellness area, or climbing up the next mountain and jump into a small lake, and after all visit a nice "Buschenschank".

(Quelle: <http://www.logp.at>)

2. The Scenery

The scenery is based on open for public information and maps. The objects were completely rebuilt. The package includes night textures and realistic lighting (X-Plane 10, 11 only).

Charts

are included in this package.

Austrian X-Plane Design Group

3. Functions (summary)

- Photorealistic scenery
- Parkpositions, taxiways, runways, etc. conform to the charts
- Different buildings in the vicinity of the airport
- Night textures and realistic lightning *)
- ATC taxilines for AI traffic *)

*) X-Plane 10, 11 only!

4. Installation

Just copy the folder "LOGP Pinkafeld 2.0" in the compressed file after unpacking in the "Custom Scenery" - folder.

directory structure:

```
<X-Plane-folder>/
  Custom Scenery /
    LOGP Pinkafeld 2.0/
      Earth nav data and others)
```

and restart X-Plane.

5. Recommended settings

To visualize all light effects, HDR should be activated. The higher the settings for "texture resolution" and "airport detail" the better the quality of the scenery but the more affect on the FPS ratio.

6. Necessary software

X-Plane® Version 11.10+, 10.25+ oder 9.7

7. Comments for the X-Plane 9 version

Unfortunately some functions of the scenery must be disabled for X-Plane 9 and therefore it will not look like on the pictures which where taken with X-Plane 10.25.

Austrian X-Plane Design Group

8. Libraries used

none

9. Recommended Addons

Although the scenery will work without any addons, we recommend to use the following ones for the whole experience (pictures taken with addons installed):

OSM Europe osm+autogen by PilotBalu.

Download: http://simheaven.com/?page_id=23

to have streets and buildings from OSM and autogen where is no coverage of such data.

Europe Library from LyAvain.

Download: http://simheaven.com/?page_id=14

to see European instead of US buildings.

TAXI-HD Enhancement Pack from PierreLvx:

Download: <http://forums.x-plane.org/index.php?app=downloads&showfile=19539>

to have taxi signs in higher definition.

10. Credits

LAMINAR RESEARCH®	for X-Plane®
Ben Supnik	for WED (Version 1.6.1 verwendet)
marginal	for his Sketchup-Plugin

11. Betatester-Team

DanielMan, greuff, PAA196, PetJedi, grissley, davewing
all members of AXDG.
