1. The original

The Schider Helicopter Service or shortly SHS was founded in 1992 as required airlines to give priority load and transport flights for Cottages in Lower Tyrol and Salzburg's Pinzgau region were carried out by Heliport in Waidring. In the winter seasons began casually with rescue flights for injured skier from the surrounding ski areas.

In 1995, the company philosophy has changed fundamentally, from now on, the focus was placed on rescue flights. All year now flew "Heli 1" to emergencies in the winter seasons, another emergency helicopter was "Heli 2" busy to provide relief.

In 2000 was negotiated after failed talks between Christophorus Air Rescue Team and the Red Cross Kufstein a rescue helicopter for the district with Schider Helicopter Service on the establishment of its own ambulance helicopter. After successful completion of the talks on the alerting by the district's control center took in April 2000 "Heli 3" on his service, location is still the Heliport in Unterlangkampfen, only a minute of the flight from the district hospital Kufstein.

ICAO:	LOIM
GPS-Data:	N 47° 33.95'
	E 12° 08.12'
Frequency:	123,10 MHz

2. The Scenery

The scene is based on publicly available information and pictures. All items have been newly created.

The scenery includes night textures and realistic lighting (Only X-Plane 10, 11).

Charts

not available

3. Functions (summary)

- Photorealistic Scenery
- Compatible to OSM+autogen V6.0 from PilotBalu
- Realistic Groundtextures at the airport
- Parkpositions, Taxiways, Runways, ... conform to the Charts
- realistic Markings at the apron and the taxiways
- various buildings and structures in the area
- nighttextures
- Winter - Textures
- realistic lighting *)

*) X-Plane 10, 11 only!

4. Installation

Just copy the folder "LOIM Heliport Kufstein 2.0" in the compressed file after unpacking in the "Custom Scenery" - folder.

directory structure:

```
<X-Plane-Folder>/
  Custom Scenery /
    LOIM Heliport Kufstein 2.0 /
      Earth nav data and others)
```

and restart X-Plane.

Austrian X-Plane Design Group

5. Recommended settings

To visualize all light effects, HDR should be activated. The higher the settings for "texture resolution" and "airport detail" the better the quality of the scenery but the more affect on the FPS ratio.

6. Required Software

X-Plane® Version 11.11+, 10.32+ or 9.7

7. Used Libraries

none

8. Recommended addons

Although the scenery will work without any addons, we recommend to use the following ones for the whole experience (pictures taken with addons installed):

OSM Europe osm+autogen by PilotBalu,

Download: http://simheaven.com/?page_id=23

to have streets and buildings from OSM and autogen where is no coverage of such data.

or

Osm Austria beta6.0 by PilotBalu

Download: <http://simheaven.com/experimental/>

HD Mesh Scenery v2 by alpilotx

Download: <http://www.alpilotx.net/downloads/x-plane-10-hd-scenery-mesh-v2/>

Europe Library von LyAvain,

Download: http://simheaven.com/?page_id=14

to see European instead of US buildings.
