Austrian X-Plane Design Group

1. The Original

The origins of the club go back to 1953. Since the mid-sixties at the airfield Eferding (ICAO code: LOLE) is flown. The airfield is located in the municipality Pucking north-west of the district capital Eferding, beautifully situated beneath the striking spectacle castle Schaunburg.

Guests are welcome at the airport, whether by car, bicycle, on foot or by plane, of course. The Schaunburg and the airport are also a nice destination for all, especially families with children. In the surrounding area there are many other interesting destinations such as Aschach on the Danube, the lakes in Feldkirchen, the ski jump in Hinzenbach, ...

The airfield Eferding - always a Airxperience

The Club SMBC Eferding consists of about 50 members who come from all age groups and social classes.

We operate at the aerodrome Eferding especially sailing and motor gliders. We have a wide range of aircraft available. We lead an active social life and also look forward to new members, with whom we can share the fascination of air sports. Read more in our latest flyer.

Our members appreciate the intimacy of a small club.

2. The Scenery

The scenery is based on publicly available information and maps.
All objects were completely rebuilt.

The package includes night textures and realistic lighting (X-Plane 10, 11 only).

Charts

are included in this package.

3. Funktionen (summary)

- Photorealistic Scenery
- Compatible to "OSM+autogen" or. "Osm_Austria_beta5.0" from PilotBalu
- various buildings in the area
- realistic ground texture at the airport and in the surroundings
- Parkpositions, Taxiways, Runways, and so on. conform to the Charts
- hangar doors can be opened (with [HangarOps Package](#))
- night textures
- realistic lighting *)
- ATC-Taxilines for AI-Traffic *)

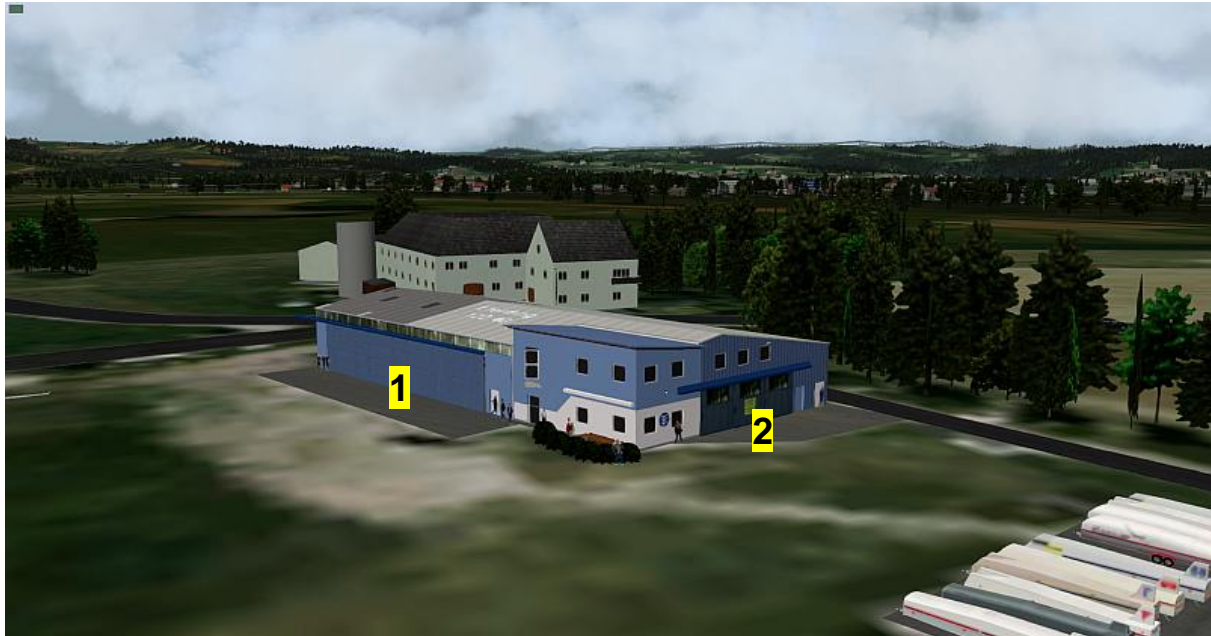

*) X-Plane 10, 11 only!

Austrian X-Plane Design Group

4. Hangar-Doors

The two hangar doors can be opened with the addon "HangarOps Package" of BlueSideUpBob (see credits)

Hangar-Codes:

Parking positions are located in Hangar 1 and Hangar 2, so that the flight can be launched from the hangar.

5. Installation

Simply unpack the scenery-folder and copy the content into your 'custom scenery' folder of X-Plane

directory structure:

.../ Custom Scenery /
 LOLE Eferding 2.0 /
 Earth nav data and others)

Restart X-Plane and enjoy.

6. Recommended settings

To visualize all light effects, HDR should be activated. The higher the settings for "texture resolution" and "airport detail" the better the quality of the scenery but the more affect on the FPS ratio.

Austrian X-Plane Design Group

7. Required Software

X-Plane® Version 11.11+, 10.30+ or 9.7

8. Comments for the X-Plane 9 version

Unfortunately some functions of the scenery must be disabled for X-Plane 9 and therefore it will not look like on the pictures which were taken with XP10.30RC2).

9. Used Libraries

none

10. Recommended addons

Although the scenery will work without any addons, we recommend to use the following ones for the whole experience (pictures taken with addons installed):

OSM Europe osm+autogen by PilotBalu,

Download: http://simheaven.com/?page_id=23

to have streets and buildings from OSM and autogen where there is no coverage of such data.

or

Osm Austria beta5.0 by PilotBalu

Download: <http://simheaven.com/experimental/>

HD Mesh Scenery v2 by alpilotx

Download: <http://www.alpilotx.net/downloads/x-plane-10-hd-scenery-mesh-v2/>

Europe Library von LyAvain,

Download: http://simheaven.com/?page_id=14

to see European instead of US buildings.
