## 1. The Original

The glider and model airplane club Kirchdorf-Micheldorf is a non-profit association for the promotion and practice of sailing and model airplane flying on professional and amateur sports base.

The flying experience and camaraderie are the focus of our club activities. We strive to provide each member with an individual compromise between cost and time, and thus make the glider and model airplane flying to all walks of life accessible.

The safety of our members, the protection of the environment and the interests of the region has top priority for us. The personal responsibility of our members has a high priority. The awareness we awaken by a basic education and an accompanying training that is geared to the capabilities of the individual pilots.

The sustainable future of the association is the background of all our decisions.

### 4. Installation

Just copy the folder "LOLM Micheldorf 1.0" in the compressed file after unpacking in the "Custom Scenery" - folder.

#### directory structure:

```
<X-Plane-Verzeichnis>/  
    Custom Scenery /  
        LOLM Micheldorf 1.0/  
            Earth nav data and others)
```
