1. The Original

The S"ieghartskirchner Modellbauclub" was founded in 1972 and operates a model airfield, which is located west of the city Sieghartskichen.

The course is raised, on a slope. When approaching from the east please pay attention to the high voltage lines about 300m before the airfield.

Due to the short length of the slope (200 m) only suitable for "rotorcraft" or RC models.

2. The scenery

The scene is based on publicly available information.

All objects have been completely rebuilt.

The scenery includes night textures and realistic lighting (Only X-Plane 10).

5. Recommended settings

To visualize all light effects, HDR should be activated. The higher the settings for "texture resolution" and "airport detail" the better the quality of the scenery but the more affect on the FPS ratio.

6. Required Software

X-Plane® Version 10.30+ or 9.7

7. Used Libraries

none

8. Recommended addons

Although the scenery will work without any addons, we recommend to use the following ones for the whole experience (pictures taken with addons installed):

OSM Europe osm+autogen by PilotBalu,

Download: http://simheaven.com/?page_id=23

to have streets and buildings from OSM and autogen where is no coverage of such data.

or

Osm Austria beta6.0 by PilotBalu

Download: <http://simheaven.com/experimental/>

HD Mesh Scenery v2 by alpilotx

Download: <http://www.alpilotx.net/downloads/x-plane-10-hd-scenery-mesh-v2/>

Europe Library von LyAvain,

to see European instead of US buildings.
